PROVINCIAL SECRETARY'S OFFICE,

THE LIEUTENANT GOVERNOR direct THE LIEUTENANT GOVERNOR directs
the following extract from a report addressed to the Provincial Government, by T.
A. Bulkley, Esq., Chief Engineer, upon the
comparative advantages offered by "Lang
Cove" and "Thetis Cove." as alternative
sites for the proposed graving Dock at Esquimalt, to be published for the information of the public generally. By Command

A. ROCKE ROBERTSON. Provincial Secretary.

"In originally selecting Thetis Cove, I was entirely unbiassed. I was aware that "Con stance (or more accurately "Lang") Cove' bad been mentioned, though I did not know t had been so strongly recommended as have since ascertained was the case. And I still hold to my opinion as to "Thetis Cove" peing THE Site, as regards economy and facil ity of construction, and as being more shelered and, consequently, easier of access. Being anxious, however, to place before

Government something more than my own bare opinion in this matter, and acting upon a suggestion of His Excellency the Governor, I beg to submit a comparative statement of the cost of Dock in alternative site. Now, although the cost of actual construc tion of the Graving Dock itself may be as-

sumed as the same in either place, there are several variable items in connection with the work which will considerably affect the total Among these the following are the most

important. Viz:

1. "Cofferdam," or the cost of excluding Sea
Waters during construction.
2: "Excavation for foundations."

3. "Purchase of necessary Land."
Wherever the Dock is located, in order to make it complete, it will be necessary to fill in round the sides and back, to, at least, 3 feet above high water. We have, therefore,

4. "Reclamation round Dock."

Arranged in the shaped of a Debtor and Creditor account the comparative cost will
